or professional accountants?

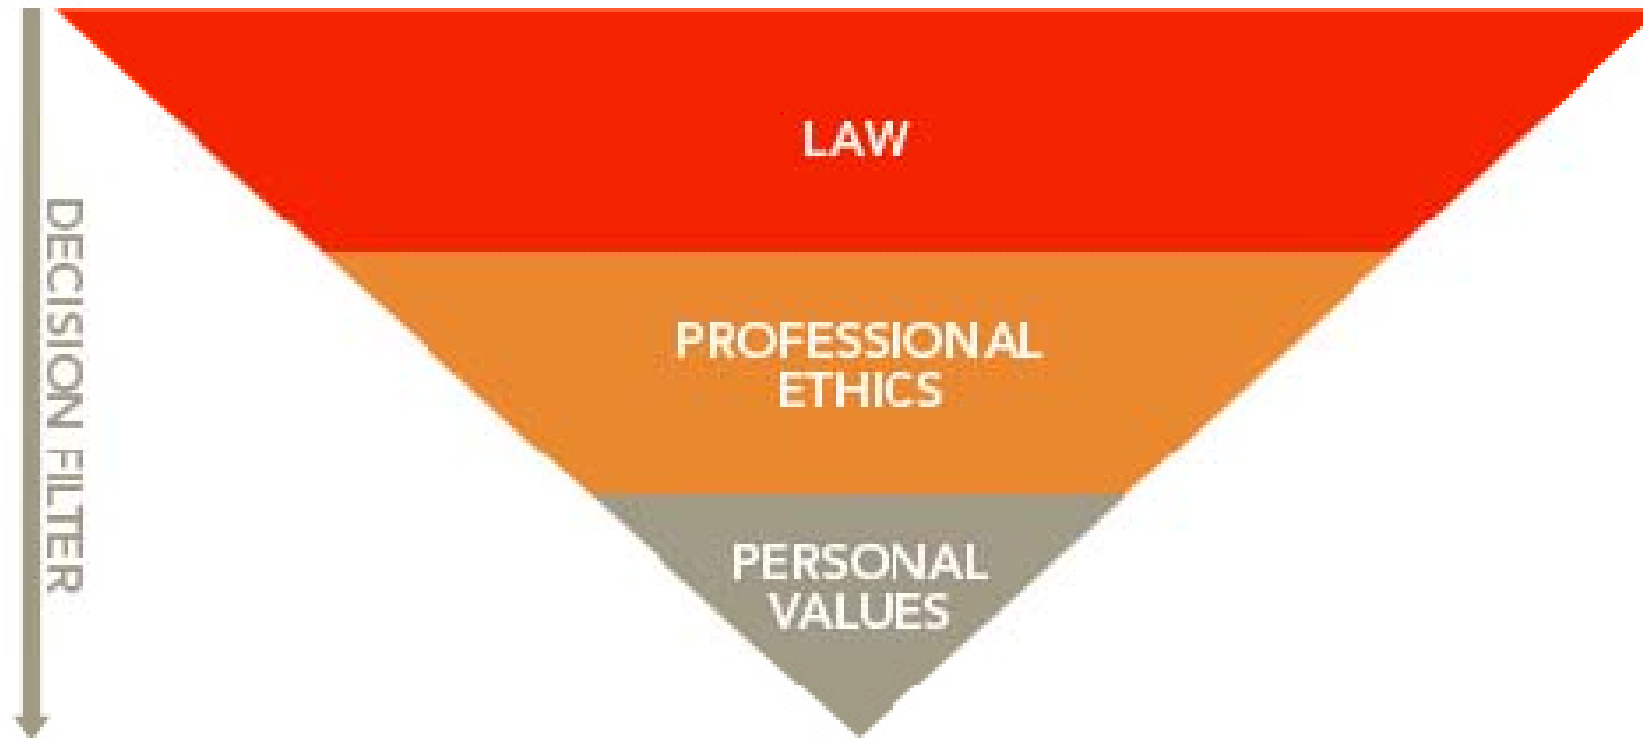

Ethics.

“BUSINESS” ETHICS

- Philosophy - difference between right and wrong
- What’s in for me?
v. What’s good, right and just for everyone?
- Education v. Experience

- All people have ethical lapses!
- Ethical person will admit the error, try to make amends, and learn from the transgression.
- Unethical people cover up the blunder, do not care about the consequences of their sin, and learn nothing from the experience.
